Abstract :

$C = 300000 \text{ Km/1Sec}$ is tenet, is an unite.

$1/c = 1\text{cm/c sec.}$ is a corollary (vice tenet) is a an unite for appear universe.

It has taken human being with respect to seer, appear and supervisor.

Key words :

The distance between human being and itself face, birth and die. Note, has taken $1/c$ velocity of view of supervisor.

How will see that distance between human being supervisors and itself face, birth and die?

Demonstration :

Equation 1

About Length between self and face

$$L = L \sqrt{1 - 1/c^2 / c^2}$$

Equation 2

About time between self and face

$$t = \sqrt{\frac{t}{1 - 1/c^2 / c^2}}$$

Equation 3

About simultaneous between self and face

$$\sqrt{\frac{1/c (x_1 - x_2) / c^2}{1 - 1/c^2 / c^2}}$$

Both the events happen by simultaneously

Equation 4 Both human being and itself face becomes to each other.

$$\frac{1/c_1 + 1/c_2}{1 + 1/c_1 \cdot 1/c_2 / c^2}$$

Equation 5 Still human being when going by $1/c$ motion whiles its internal energy as:

$$M = \sqrt{\frac{m_0}{1 - 1/c^2 / c^2}}$$

Equation 6 When m having mass of a thing while its intrinsic energy $E = mc^2$ by *Einstein* and internal energy may get $E = mc^2$ by *S.S Vispute*

Equation 7 $E = mc^2 = \underline{9*10^{20}}$ erg. Energy by Einstein.

$E = mc^2$ by the S.S Vispute

$$\begin{aligned} 1/c * 9*10^{20} &= 3*10^{10} \\ &= 3*10^{10^2} = \underline{9*10^{20}} \text{ erg energy} \end{aligned}$$

Note, intrinsic and internal energy is the same from any each thing by $c/1$ and $1/c$.

Results :

- Time is iternal
- 'c' is absolute and tenet is an unit.
- $1/c$ is corollary (vice tenet) is a unit for emergence of this appear universe.
- Nobody can slow more than $1/c$ sec.
- These equations apply for from arise the Sun.
- Velocity of light c apply for our Galaxy only.
- Velocity of light move by the time ether.
- Indisputable, velocity of light c is absolute.
- This corollary appear world can not move and develop without principle (absolute)
- God, Soul is a confer from the human being to the state of absolute and principle.
- The center-point of a rotator circle is a really soul made by mathematical, geometrical and scientifically method. High knowledge is need to understand.
- This soul (center-point) is always being into the navel of each moving, non moving entity

Conclusion : Waiting for your comments. My thought is my laboratory and my thought is my qualification.
