

# COVID-19 : was it worth a lock-down?

Thierry De Mees  
Independent researcher  
thierrydemees @ telenet.be

In my last paper, "COVID-19 : the truth is in front of us", I have treated the alleged pandemic until May, 2020. The Abstract reads as follows: "The world has been hit by a virus and the world reacted as if it were the plague. This study is not to be seen as a medical analysis of the situation as per date, but as a societal study, with elements from different sources, including reports, studies, articles and videos. It shows a very different truth from the one that is presented by the World Health Organization (WHO), the mainstream media, and the governments. However, the choice to awaken or not is the reader's.

This paper should be read as a chain of essential references, clarified and explained by the text. I have avoided to add references to well-known or easily verifiable definitions in order to simplify the reader's analysis."

In the actual communication, I share an important, extended explanation by Dr. Dolores Cahill during a public conference. Also, I add the reference that shows the strong geographic correlation between the 5G roll-out and the COVID-19 outbreaks, suggesting that the immune system has been under attack by the E-M waves. The book "The contagion myth" by Thomas Cowan even suggests that only immune system attacks, like poison and electromagnetism, are at the basis of most pandemics.

**Keywords:** Coronavirus, 2019-nCoV, SARS-CoV-2, COVID-19, chloroquine, hydroxychloroquine, ID2020, vaccines, Dr. Dolores Cahill, 5G, pandemic, immune system.

The link I would like to share is a public conference video from Dr. Dolores Cahill, in which she totally unveils the medical, social, constitutional and political truths about the Covid-19 virus.

Wishing you an interesting revelation. Please share if you agree.

I would also like to share the following information: the following material suggests that the deployment of 5G has weakened the immune system of people who live in these areas, because the geographical correlations between illness and 5G roll-out is stunning.

"Study of the correlation between cases of coronavirus and the presence of 5G networks"

<https://www.5gexposed.com/wp-content/uploads/2020/04/Study-of-correlation-coronavirus-5G-Bartomeu-Payeras-i-Cifre.pdf>

The suggestion is given that cell membranes are inadvertently weakened/degraded by 5G, which has a frequency that causes resonance in the cells, and in oxygen molecules. As a result, the normal functioning (including the immune system) is affected. See:

"The contagion myth", pag.33: "CHAPTER 2: ELECTRICITY AND DISEASE"

[https://cloud.5dportal.net/shift/library/miscellaneous/thomas\\_s\\_cowan\\_-\\_the\\_contagion\\_myth.pdf](https://cloud.5dportal.net/shift/library/miscellaneous/thomas_s_cowan_-_the_contagion_myth.pdf)

Here we read, pag.44: "The authors noted that government studies claiming 5G safety have taken no account of the fact that 5G radiation can be pulsating and modulated and emitted from multiple antennas. Of interest is the finding "that EMF waves can also be circularly polarized by interaction with atmospheric dust and therefore may penetrate much deeper into the organism."
