Abstract :

'C' may primary basic foundation of this corollary universe may not be any other cause

Keyword :

Always, we are consider about that how may growth this corollary universe (not relative)? Is based on the 'c'

Introduction :

Rather, this universe has not hide its secrete to find is our right by the theory of absolutes.

Demonstration :

We know well that C is constant, absolute, independent and maximum infinity. How is it infinity? Because it is not able for measurement of the whole universe. Rather it is apply only for our galaxy, not for universe. So that it is maximum. Present scientists say that these appear universe 96% is darkness. 4% lightness. Let us see something formulates in which 'C' is basic primary foundation.

Formula 1

'C' having components :

Mass

1 g.

Diameter

1cm.

Motion

C cm.

Result : is an unit for our galaxy.

Formula 2

E = mc² by Einstein **E = mc² = 9*10²⁰** erg.

Result : Is an unit for measurement of external energy of 1 Gramm.

Most Important

Formula 3

E = mc⁻² by the theory of absolutes

E = mc⁻² = 9*10²⁰ erg.

...(Ref: 12th paper. Date February 11, 2013)

Result : Each living entity having the same internal energy is an unit for measurement 1/c g. matter.

Formula 4

E = mc² * E = mc⁻² = 1,

Or

c/1 * 1/c = 1

Result : This 1 is microparticle , which may growth by the sex discrimination between male and female together have a baby boy or a baby girl by the proportion of percentage between two equations.

Formula 5

Light

Space

Motion

Time

Water

c/1

1/c

c/1

1

1/c

= 1 is a basic particle for

corollary universe

Result : If you have success to get this material you may get basic particle for the corollary universe.

Conclusion :

The theory of absolutes may a better substitute for relativity. Because, the theory is based on the 'C'

Time is eternal = ∞ space time motion are invisible in this state.

Time = 1 us a visible aspect in the event occur whenever space motion connected to time while they become absoluteness. And whenever they remove from the time while they become absoluteless. In the theory of absolutes there is not at all imagination. Note the velocity of light having by the time ether.

c/1 and 1/c is a time dilation and space contraction. Higgs Boson may be proof to the transition of each entity that is a proof any entity may not be destroy.
