

## Announcing Audio-Video Now Online

Online Audio-Video about: Why various mass particles exist?

A free, viewable Audio-Video is now viewable explaining: Why Different Sized Mass Particles Exist, i.e., big, medium-sized, small -- all the masses.

It is viewable by going to:

<http://www.causeeffect.org/articles/book.html>

and then clicking a small **loud-speaker** Icon that appears there.

Or, perhaps also viewable by clicking:

[Booklet of large & small Spheres in Patterns, and large & small Mass Particles](#)

and then clicking a small **loud-speaker** Icon that appears there.

The first minute may not seem very exciting, but viewers who watch it for a few minutes will be likely amazed and very pleased.

---

The Audio-Video is by Carl Littmann. An equivalent viewable and **printable copy** of its Text, Illustrations, and other content is available by likely clicking the below:

**File:**

[/Research Papers-Quantum Theory / Particle Physics/Download/6726](#)

Or

By going to the author's website: [www.causeeffect.org](http://www.causeeffect.org)

And clicking the article their entitled: [Booklet of large & small Spheres in Patterns, and large & small Mass Particles](#)

Or

by going to: the General Science Journal homepage, using author index to scroll down to "Littmann", clicking it, and then noting his article,

[Geometric Ratios that nearly equal Mass Ratios of major Particles](#), and clicking the **VIEW** box adjacent that title.

It is hoped and contemplated that the online Audio-Video will be viewable and accessible for a long time. Carl Littmann, 25 Washington Lane, Apt. 313, Wyncote PA. 19095
