

# **Natural Philosophy and Relativity of Boscovich**

By Roger Anderton, Dusan Nedelkovich

THE FIRST UNIFIED FIELD THEORY WAS BY BOSCOVICH IN THE 18th CENTURY.

\* To be specific, this book deals with Boscovich's unified field theory, which is an attempt to unify the known forces of physics into a single universal law.--Harry Ricker

\* Our history of physics needs to be rewritten thanks to Boscovich's contribution. -- Eri Yagi

\* Boscovich first single-handedly combined the macro world (Newton's world machine) with the micro world (of atoms) by inventing a single consistent law – Otto E. Rossler

\* Boscovich was far ahead of his time. Perhaps too far.-- Greg Volk

\* The great inventor and scientist, Tesla, was also much influenced by Boscovich. --- Carl R. Littmann
