Abstract

Let us see that Glossary by the theory of Absolutes

Demonstration

Absolute Time

- The idea that there can be a Universal clock.
-Stephen Hawking
- * The theory of Relativity showed that there could be no such concept
-Einstein
- * The new idea that the Sun is a Universal sky Clock
-sukalal vispute

Absolute

At this Time, which we are looking that i.e. Absolutes

I am looking you, You are looking me. Both are present now. It is clear that both are absolute

Absolute Zero

The lowest possible temperature 1/C sec. Is a absolute Zero i. e. nucleus

Event

Always, event occurs between two absolute zero points which contain into the same two bodies and get result as hallmark.

Corollary

C/1sec is a tenet.

1/Csec is corollary

Corollary science

Physical science may not be sufficient, can not creates the matter. it is contained into the corollary science. Because, corollary science creates the matter and gives full information of matter.

Ether

There can be fluidize ether in the aspect of together space time motion as per the unit of $1/c$ g, $1/C$ cm, $1/C$ sec which is required for propagation electromagnetic radiation

Earth

We live in the earth not on the earth .By the theory of Absolutes. To consider is need

Gravitation

Gravitation creates into the matter. Each matter is in rotatory motion. Therefore, Gravitation surround to us always. The earth is in rotatory. We are into the earth. All action in our body occurs due to the gravity of the earth.

Surface

No such concept of surface in this world. Because, each particle in each other.

Higgs Boson

Higgs Boson may not be the God particle. To get it you must go further up to $1/C$ sec.

Energy

$E = mc^2$ is an external Energy ($C/1$ sec.)

$E = mc^{-2}$ is an internal Energy ($1/C$ sec.)

Universe

This our universe is corollary made by $1/C$ sec. the universe fill-up by the events and events occur by the particle.

Occurs

For occurs, To occurs and with occurs the clock is need. The Sun is a sky clock show the time by the velocity of light that is a second. All this universe is stand on one second. Any each event occurs by one second. This is a universal device or arrangement.

Principle

Nucleus is a principle / axis for whole universal events.

Railway

Einstein imagine railway having no creative space time motion only show ordinary space time motion. Besides, it is very heavy/ bogus. Because, railway no possible to move by 2,40,000 km /1 sec.

Birth

Which come from one to another with nucleus that is birth.

Die

Which go from one to another with nucleus that is die.

Space

Creative space is a space.

Time

Creative time is a time.

Motion

Creative motion is a motion

Relativity

It is an optical illusion, but without base.

Face

You can see to your face ? no

You can give proof about your face ? no

You can say, that I have no face ? no

Please find that answer who is me ? relative or absolute.

Male/ Female

How they are super intellect more than another animales ?

Formula : -	mass,	diametre,	motion
	1g	1cm	C/1 sec. only apply for male/ Female
	1/c g	1/c cm	1/c sec. only apple for animales

Note : each entity having get intellect by the proportion of itself origine diametre by above formula.
