

Shiva Shiva

ARE WE MADE BLIND TO SEE
COSMIC π OF ITS 100%
REALITY, LIKE THE INTENSITY
OF LIGHT OF ^{THE} SUN & ^{THE} HEAT
OF CORE OF ^{THE} EARTH?
(422nd Proof on Rho)

The Exhaustion Method of
Eudoxus of Cnidus and later
refined by Archimedes; 2. the
introduction of Infinite Series
from 1660 and; 3. With the advent
of Super Computers have made
us to ignore the simplicity of
derivation of Cosmic π called
Rho, as fake/wrong/rubbish/
garbage^{etc.} have become common,
in the world of Mathematics.

2

$$CB = \text{Diameter} = 2r$$

$$OB = OA = \text{Radius} = r$$

$$AB = \text{Chord} = OB \times \sqrt{2}$$

$$= \sqrt{2} r$$

B Perimeter of the triangle =

$$r + r + \sqrt{2} r$$

Definition of Circumference:

"Four times of, one eighth of perimeter of inner triangle subtracted - diameter, is equal to the circumference of circle"

$$\left\{ \text{Diameter} - \frac{\text{Perimeter of triangle}}{8} \right\} 4$$

$$\left\{ 2r - \left(\frac{r + r + \sqrt{2}r}{8} \right) \right\} 4 = 2\pi r$$

$$\therefore \pi = \frac{16 - \sqrt{2}}{4}$$

Thank God
